

Overrun Counties Issue -- Points of Concern

Things to keep in mind.

(1) Prices in the Scott's Specialized are very uncertain.

- a. Scott's listings have been evolving over the last 10-15 year
- b. Quantity of normal vs reverse printings is still highly uncertain
- c. Depth of individual type errors is still being determined; stuff hiding in many collections.
- d. Large amounts of "errors" can come onto the market at any time, i.e. sheets
- e. Two of the printings that are reversed are considered as "normal" and carry no no premium price (Greece & Korea)
- f. Denmark – is documented with GRAY instead of BLACK
- g. Prices for Name Blocks and complete sheets is highly speculative
- h. Prices for FDCs are still being determined in the market place, act accordingly
