# ***Buyer Beware!***

***My Fake Coil***

***A U.S. Scott# 352***

***(Double-Line Watermark, Perf. 12 Vertical)***

Mike Smith

# How is this Done, and Why??

- **HOW - U.S. Coils Are Often Faked by:**
  - 1) Trimming perforations on either the horizontal or vertical side(s) of a perforated stamp
  - 2) Reperforating an imperforate stamp on either the horizontal or vertical side(s)
- **WHY - Early Coil issues were produced in limited quantities and therefore, have significantly more value than commonly issued perforated sheet or imperforate sheet stamps**

***Word to the Wise – Always obtain a Certificate of Authenticity for U.S. Coil Stamps valued over \$100, particularly the Perf. 12 Issues***

EXPERT COMMITTEE

We have examined the enclosed item, of which a photograph is attached, and *described by the applicant* as follows:

Country: UNITED STATES OF AMERICA

Cat. No.	Issue	Denom.	Color
352	1909	1¢	green

Scott's unless otherwise specified.

UNUSED, OG,

AND WE ARE OF THE OPINION THAT:  
IT IS NOT A GENUINE COIL, THE PERFORATIONS ARE COUNTERFEIT. \*\*\*\*\*

For The Expert Committee  
Chairman

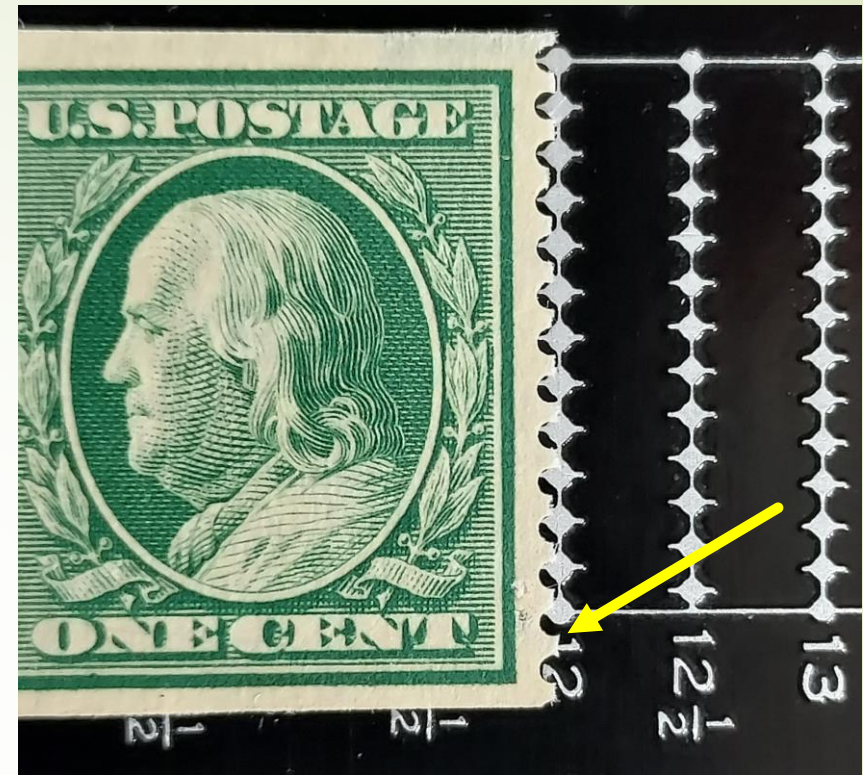

Photocopies of this Certificate are not valid.

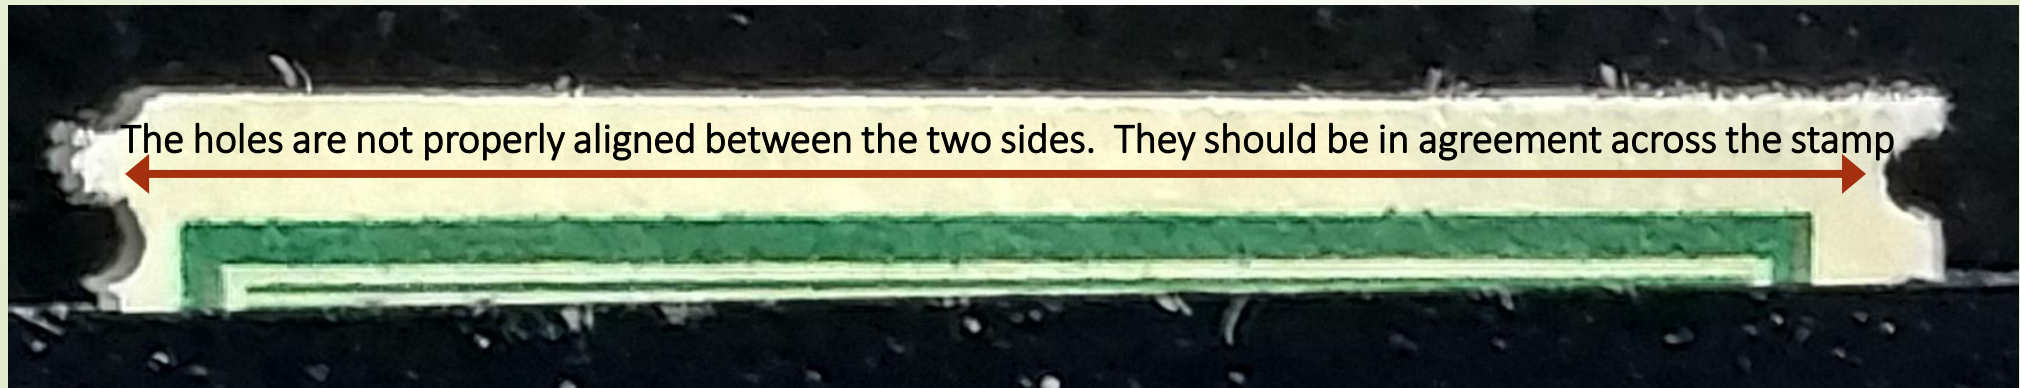

# Let's Investigate Further

You can see how cleanly cut the holes are on the right side, especially at the top

Notice on a standard perforation gauge, the holes quickly become out of alignment as you traverse down the side towards the bottom

Luckily, I bought this stamp from a reputable dealer at the January 2024 Sarasota Show who will make good on my ill-fated purchase!! 😊

**Stay Tuned...**

**More to come on this topic in a future
